Summary

Aerospace Engineering undergraduate with strong experience in **CAD design, simulation (ANSYS), and hands-on engineering projects**. Experienced in simulation tools and technical documentation. Seeking to contribute to engineering projects.

Skills

Technical Skills: Ansys Workbench, Solidworks, Fusion 360, AutoCAD, MATLAB, Simulink, Excel, PowerPoint

Soft Skills: Problem-solving, Adaptability, Collaboration, Teamwork

Projects

- **NACA 0012 Airfoil with Slotted Flap analysis** *January 2024 - April 2025*
 - Performed computational fluid dynamics (CFD) simulations to analyze pressure distribution, velocity contours, and aerodynamic forces on a NACA 0012 airfoil at various AoA (0°, 5°, 10°, 15°, 20°)
 - The slotted flap was designed and created in SolidWorks, utilizing the NACA 0012 airfoil as the baseline geometry.
 - Documented results and prepared detailed technical reports using MS Word and PowerPoint.

Experience

- **Hindustan Aeronautics Limited** *May 2023 - June 2023*
Intern *Koraput, Odisha*
 - Gained hands-on exposure to mechanical systems through participation in turbomachinery assembly and manufacturing processes.
 - Observed engineering workflows, safety practices, and system integration in a high-precision industrial environment.
 - Prepared a detailed technical report on project management practices using MS Office tools.
 - Collaborated with engineers and teams, enhancing understanding of real-world engineering operations.

Education

- **Kalinga Institute of Industrial Technology (KIIT)** *July 2021 - September 2025*
B.Tech in Aerospace Engineering *Bhubaneswar, Odisha*
 - CGPA: 8.02
- **St.Xavier's School, Doranda** *May 2019 - May 2021*
Percentage: 82.8% *Ranchi, Jharkhand*
- **St.Anthony's School, Doranda** *May 2019*
Percentage: 86.2% *Ranchi, Jharkhand*

Certifications

- Ansys Training - Internshala Trainings
- MATLAB Onramp
- Simulink Onramp
- GE Aerospace Engineering Job Simulation - Forage
- Data Analysis with Python - FreeCodeCamp

Achievements

- Contributed to the development of a fully functional drone as part of a collaborative robotics event, Lift Off, conducted by KIIT Robotics Society
- Bassist of college metal band and Grade 2 guitarist from London College of Music
